Press Release

Drug R&D Update Briefing for Analysts and Investors on 17 October 2014

London: Tuesday, 7 October 2014: Chi-Med today announces that it will host a briefing to update analysts and investors on Hutchison MediPharma Limited (“HMP”), its majority owned pharmaceutical R&D division, in London on 17 October 2014. HMP has a substantial pipeline of oral, small molecule and botanical drugs for cancer and inflammatory diseases that has grown and progressed significantly in recent years.

HMP’s current clinical pipeline includes: fruquintinib, sulfatinib, epitinib, theliatinib, and AZD6094 (formerly known as volitinib), each of which has the potential to treat a number of cancers. The clinical pipeline also includes HMPL-523 and HMPL-004, which have potential to treat certain inflammatory conditions. The briefing will focus on this pipeline.

During the briefing, the management team will detail the key aspects of HMP’s R&D strategy and focus, as well as providing further information on some of HMP’s pre-clinical research programmes, including its PI3K δ inhibitor and its FGFR inhibitor.

The briefing will begin with a keynote presentation from Dr Andrew Mortlock, Vice President of Cancer Research and Development Projects of AstraZeneca, entitled, “Next Generation Kinase Inhibitors for the Treatment of Cancer.” He is responsible for AstraZeneca’s small molecule oncology projects from lead optimization to the end of Phase IIb.

Dr Weiguo Su, Executive Vice President and Chief Scientific Officer of HMP and Dr Ye Hua, Senior Vice President of Clinical Development & Regulatory Affairs of HMP, will be presenting on HMP’s compounds in research & development and HMP’s overall strategy.

Dr Su has 24 years of experience in delivering high quality new drug candidates at HMP and at Pfizer, where he was Director of Medicinal Chemistry. Dr Su has built HMP’s highly productive research platform, including managing the discovery of all its small molecule drug candidates.

Dr Hua has over 15 years of new drug development and registration experience, as well as many years of experience in cancer epidemiology. In the course of his career he has led several clinical teams in pursuing registration clinical trials and achieving regulatory approval for major marketed pharmaceuticals at Novartis and Celgene.

Mr Christian Hogg, Chief Executive Officer of Chi-Med, will also give presentations covering Chi-Med’s overall business strategy and approach to funding its R&D.

No new material trading or financial information will be disseminated at the meeting. Following the meeting, the presentations will be made available at <http://chi-med.com/eng/irinfo/presentations.htm>.

The briefing will take place at the Andaz Hotel, 40 Liverpool Street, London, EC2M 7QN on 17 October 2014 at 9:30am, with registration starting from 9:15am. Please contact Mrs Janine Chase by email at Janine.Chase@citigatedr.co.uk to register.
